## **GOLDFISH Studio**

Goldfish Studio is a valuable resource for architects, designers, dealerships and clients in developing specialized furniture solutions that meet the constantly changing demands of today's workplace environments. Goldfish Studio offers a range of capabilities and services including open-plan workstations, private offices, reception desks, conference tables, storage components, space planning and nearly anything else that requires specialized attention. Because we start each project with a clean drawing board, we can transform your client's vision of what their working environment should be into a reality. The following pages represent a few of our recently completed projects. For more information and to view more projects and ideas please visit our website and download the Goldfish Studio portfolio or contact us directly.
